

We have published this guide to assist our agents and to provide the title examiner with information about the towns in the State of Connecticut: the hours of operation, addresses and telephone numbers, tax payment and adjustment information and indexing.

This guide does not include:

- Charges imposed by most private institutions or associations, including planned communities, condominiums and utility companies.
- Liens imposed for violation of state or local ordinances, including zoning laws, housing codes and environmental regulations.
- Special assessments imposed per order of town government.

Notes:

- Summer hours: Some of the smaller towns adjust their office hours during the summer months. You may want to call ahead to confirm if the town hall will be open.
- Revised hours of operation: Some of the towns have recently implemented revised hours of operation for certain town offices and for town halls in response to budgetary constraints. Many of the towns have indicated that they will re-visit these changes at some point in the future to determine if they will continue with the revised hours or return to their original hours of operation. The hours of operation in this guide are as of the date of printing. You may want to call ahead to confirm if the hours of operation are still in effect.
- Websites: Most of the 169 towns in the State of Connecticut now have their own websites. You can access the listing of the town official websites through the State of Connecticut Municipality Website at <http://www.state.ct.us>. These websites contain a wealth of information that may be useful in your real estate practice. The towns revise their websites continually, so you may want to return to a town's website to check for updated information. In this guide, the websites in current use are included on that town's page; however the website information included in this guide is subject to change.
- Assessment websites: Please note that in a number of instances the website containing a town's assessment information is maintained not by the town, but rather by a private entity.
- Tax Districts: Tax Districts may be established by 15 or more voters within a town, pursuant to statutory guidelines set forth in Conn. Gen. Stat. § 7-325, *et seq.* Tax Districts may be established for many purposes, including but not limited to the construction and maintenance of private roads, water systems, garbage collection, etc. (see Conn. Gen. Stat. § 7-326). A Tax District operates as a political body within the town, and is empowered to elect officers, adopt a budget, and levy and collect taxes separate and apart from municipal taxes. Once created, Tax Districts are required to file annual reports with the Town Clerks. However, these reports

may not be filed on the land records and not all towns maintain a running list of all Tax Districts within their towns. Because it is not always apparent from a title search that a property lies within one of these tax districts, CATIC agents should not only consult with the town tax assessor and town clerk but also contact the seller or owner to determine whether separate taxes are paid to a taxing district.

Please note: The information provided in this manual was provided by the towns' tax assessors at CATIC's request and should not be relied upon as a complete listing of all tax districts within a town. If you determine that your property lies within a tax district, you should obtain statements for taxes owed from both the town and the separate tax district. In addition, an exception for taxes owed to the tax district should be inserted on Schedule B of the CATIC policy. If you have any concerns regarding tax districts please contact CATIC.

- Please remember to *Ask the Town Clerk* about indexing or recording procedures which may be unique to that town's offices, or about any changes which may have occurred subsequent to the preparation of this guide.

The information contained herein can be downloaded from the CATIC website at www.caticaccess.com.

We have made every effort to provide current, accurate information at press time, but changes continue to occur in each town without prior notice. Therefore, we urge you to verify information with the appropriate town officials.

Towns Which Assess the Additional Local Conveyance Tax

In 2003 the Connecticut General Assembly enacted legislation to increase the municipal conveyance tax for all Connecticut towns and municipalities to one-quarter of one percent (.25%), an increase from the original rate of eleven one-hundredths of one percent (.11%). In June 2008 the General Assembly enacted legislation to extend this increase for two (2) more years, which increase is due to expire **June 30, 2010**.

In addition to the new increased municipal conveyance tax, the General Assembly in 2003 enacted legislation to create an additional, permissive conveyance tax of one-quarter of one percent (.25%) which may be imposed by certain specified municipalities. Legislation enacted in 2004 deleted the expiration date of this additional tax, thereby extending indefinitely the ability of the eighteen (18) municipalities to assess this additional tax. (**Note:** Legislation enacted in 2005 provides that this additional tax may be at a rate of *up to* one-quarter of one percent (.25%), thereby allowing these towns to adopt a rate less than one-quarter of one percent.)

The towns which have adopted the additional tax at the rate of an additional one-quarter of one percent are:

Bloomfield	Bridgeport	Bristol	East Hartford
Groton	Hamden	Hartford	Meriden
Middletown	New Britain	New Haven	New London
Norwalk	Norwich	Southington	Waterbury
Windham			

The rate for these towns is therefore one-half of one percent (.5%).

Effective May 29, 2007, Stamford adopted an additional Conveyance Tax increase of one-tenth of one percent, which increases the local conveyance tax rate for Stamford from .25% to .35%.
